

UI Developer

Technical Test

Prepared by UI team @smashydesign

Prepared for Potential candidates

Last modified on 17th October 2023

Introduction

The purpose of this document is to evaluate your technical capabilities and to understand the competency level of the candidate. Out of many criteria's following are the ones that we will consider as mandatory when you develop your code

- Code structure and readability
- Output and how much similar to the design we provided
- Using industry best practices/technologies while coding

In addition to the above, following may give you a bonus points

- Creativity (animations, responsive, etc)
- Device compatibility

Scope

Please refer to the below details and follow the instructions carefully.

Version	Description
Design	https://xd.adobe.com/view/82f4c329-535f-4ffa-a0ec-df2a04b3e883-d7a7/
Deliverable	Github repository
Deadline	23rd of October(Next Monday 8.00 A.M.)

Technical details:
